

# Ahmed Omar Abdallah

## Senior UI / Front-End Developer

Cairo, Egypt | +20 11 123 098 47 | [ahmedomar.work](http://ahmedomar.work) | [ahmedomarabdallah1@gmail.com](mailto:ahmedomarabdallah1@gmail.com)

### PROFILE SUMMARY

Senior UI Developer with 6+ years of experience building responsive, high-impact web interfaces for public-sector portals, intranet platforms, CMS-based websites, and digital service applications. Strong hands-on experience with HTML5, CSS3/Sass, JavaScript, jQuery, Bootstrap, React.js, Redux, Next.js, Vue.js, SharePoint UI development, and WordPress. Experienced in turning UX wireframes and product requirements into clean, reusable front-end screens, including Tawakkalna-ready service interfaces for Estidamah and RCMC, and government websites aligned with Digital Government Authority (DGA) standards. Passionate about continuous learning and improving digital user experiences.

### WORK EXPERIENCE

#### Senior UI Developer | *Interactive Saudi Arabia Ltd*

Mar 2021 - Present

- Develop and maintain responsive UI components for public portals and intranet platforms across Saudi government and enterprise clients.
- Translate screen designs, wireframes, flowcharts, and documentation into clean, reusable front-end interfaces.
- **Key Tawakkalna-ready service UI work:** Designed and developed front-end screens and user flows for 7 Estidamah services (National Center for Research and Development of Sustainable Agriculture) and 1 RCMC service (Royal Commission for Makkah City and Holy Sites), intended to be added to the Tawakkalna application.
- **DGA standards-aligned government websites:** Build responsive Saudi government websites and public-sector portal interfaces aligned with Digital Government Authority (DGA) standards, covering usability, accessibility, responsive behavior, and digital government UI requirements.
- Build CMS-based interfaces using SharePoint and WordPress, ensuring consistency with branding, accessibility, and content-management requirements.
- Ensure front-end delivery complies with functional specifications, design systems, cross-browser standards, and responsive requirements.
- Collaborate with product owners, UX/UI designers, and back-end teams throughout the development lifecycle.
- Support new feature development, UI enhancements, and performance-focused improvements for public-facing portals.

**Intranet Portals:** General Authority for Military Industries (GAMI), General Authority of Foreign Trade (GAFT), National Company of Telecommunications and Information Security (NTIS).

#### UI Software Developer | *Silvertress, Cairo, Egypt*

Mar 2018 - Mar 2021

- Converted UX wireframes and mockups into responsive, interactive web pages using HTML, CSS, JavaScript, jQuery, and Bootstrap.
- Developed and customized WordPress websites and front-end templates, including layout implementation, UI fixes, and content updates.
- Improved website structure, navigation, page optimization, and graphics integration to enhance user experience and meet business goals.
- Delivered multiple Australian business websites while managing tight deadlines, changing requirements, and cross-functional feedback.
